

UNITE in COTA

Aramark

Workers across Aramark have made us aware of a number of issues relating to inadequate and uncomfortable uniforms and PPE, specifically safety shoes.

UNITE understands that these safety shoes are not fit for purpose.

We have also been told that workers are spending their hard earned cash on alternative boots in order to ensure that they are safe and comfortable at work.

UNITE is calling on Aramark to provide footwear that is fit for purpose and does not leave our members in pain or out of pocket.

We are aware that footwear is just part of the problem with your uniforms and PPE and in time we will seek to call upon Aramark to conduct a full review of your uniforms to ensure they are a high standard.

Get Active, Get Involved, Get Organised.
